

SIMPLE SUBJECT

A simple subject is a type of subject that has only one noun as the primary focus of any sentence. A subject is a noun that can be a person, a thing, or a place. Every sentence in English grammar consists of two primary parts; the first is the subject, another is a verb. A simple subject is the primary word of the sentence which tells what or about whom the sentences are all about. The simple subject defines 'what' or 'who' is performing the action mentioned in the verb.
